

Associate Software Engineer

Quantum Nexus Solutions — Job Description

About the Company

Quantum Nexus Solutions is a leading global technology firm specializing in cloud infrastructure, artificial intelligence, and enterprise software solutions. We build scalable products that power modern digital ecosystems.

Job Overview

We are looking for a passionate, detail-oriented Associate Software Engineer to join our core engineering team. In this role, you will design, develop, and maintain robust backend and frontend applications while collaborating closely with senior engineers and product managers.

Key Responsibilities

- **Code Development:** Write clean, scalable, and well-documented code using modern programming languages (Java, Python, or C++).
- **System Design:** Assist in building and optimizing reliable microservices and RESTful APIs.
- **Testing & Debugging:** Write unit tests and debug application issues to maintain high software quality.
- **Collaboration:** Participate in agile sprint planning, code reviews, and cross-functional team discussions.

Requirements & Qualifications

- **Education:** B.E. / B.Tech in **CSE, ISE, ECE, or EEE** branches.
- **Academic Criteria:** Minimum **CGPA of 8.0** and above with no active backlogs.
- **Technical Skills:** Strong foundation in Data Structures, Algorithms (DSA), and Object-Oriented Programming (OOPs).
- **Database Knowledge:** Basic familiarity with SQL (MySQL/PostgreSQL) or NoSQL databases.
- **Soft Skills:** Excellent problem-solving abilities and clear verbal/written communication.

Compensation & Benefits

CTC: 12 LPA (including base salary, performance bonus, and benefits).

Perks: Comprehensive health insurance, wellness allowances, continuous learning stipends, and flexible working hours.
