

Position: Software Developer-Intern, Riskconnect India (Multiple positions)

Reports To: Team Lead/ Manager, Software Development

Location: Mangalore, India

The Opportunity:

Riskconnect, Inc. is seeking candidate(s) for the position of Software Developer-Intern in our Mangalore office. A successful Intern candidate must be a self-motivated individual pursuing a final year degree in IT/Computer Science or a related field. You must have a basic knowledge of Software Development methodologies and Object-Oriented programming and be able to learn and scale up in a fast-paced environment.

As an innovator in risk management technology, Riskconnect offers a suite of technology solutions on a world-class cloud computing model, helping clients elevate their risk management programs, safety solutions and programs for management of all risks across the enterprise. As an intern in Riskconnect India, you will get an opportunity to build innovative solutions through our Products catering to multiple industry domains. You will get an opportunity to learn various technology stacks like Salesforce, .Net, Ruby etc. and help deliver exciting innovations with quality and business value.

If you think you are a fast learner, highly inquisitive, have a hunger to succeed, then come and join us at Riskconnect.

The Roles available:

The following Roles are available at Riskconnect Inc. The activities performed by the role are described below the role (for easy understanding of the role)
